Dutch transcribers

SimulTrans is looking for freelancer native Dutch transcribers to start at the beginning of January 2024.

Job description

Dutch native speakers are required to manually transcribe customer service phone conversations. The transcriber will be required to log in to a secure server to perform all their work, using the specific tool that is supplied by the client. No downloading of files will be permitted. Training and transcription will be via remote connection.

Job Type

Temporary

Contract length

3 months

Work location

Remote work. Work from home. Any time zone

Flexible hours, but minimum of 6 hours per day needed

Start date: January 2024

Duration: 16 - 20 weeks approximately

Rate

The rate of pay is based on the output from the transcriber.

Payment is Euro 3 per audio minute transcribed, not a fixed hourly rate.

Requirements

- Excellent native Dutch Netherlands grammar and spelling are necessary
- Standard technical PC skills required
- No previous experience is needed
- No linguistic degree is required

Languages required

- Dutch (native)
- English (Required)
